Section 1. PURPOSE

The purpose of this Handbook is to notify officers and employees of Federal, State, and local agencies that administer certain programs of procedures for obtaining certain return information from the Internal Revenue Service.

Section 2. BACKGROUND

01. Section 6103(l)(7)(B) of the Internal Revenue Code (IRC) authorizes the disclosure of tax return information with respect to unearned income to Federal, State and local agencies administering certain Federally-assisted benefit programs under the Social Security Act, the Food Stamp Act of 1977, Title 38 of the United States Code or certain Housing Assistance Programs for the purpose of determining eligibility for, or the correct amount of benefits under these programs.

02. The tax return information will be extracted from the Wage and Information Returns (IRP) File - Treas/IRS 22.061, hereafter referred to as the Information Returns Master File (IRMF) for the current tax year. This file contains information returns filed by payers of income such as dividends, interest and retirement income as reported on Forms 1099-DIV, 1099-INT and 1099-R, respectively. The information will be extracted on a monthly basis using identifying information on magnetic media submitted by the requester. The tax return information will likewise be on magnetic media.

03. The program to extract the information from the IRMF has been operational since July 1, 1985. Return information for Tax Year (TY) 1999 will be available July 2000 through June 2001.

Section 6. MATCHING AGREEMENTS

01. Upon receipt and approval of an application from an agency, the Service will prepare a matching agreement in accordance with the Section 552a(o) of the Privacy Act of 1974, as amended. The agreements will detail the following information:

- 1) the purpose and legal authority for conducting the matching program;
- 2) justification for the matching program and anticipated results;
- 3) description of the records to be matched;
- 4) projected starting and completion dates of the matching program;
- 5) procedures for providing notice to individuals that information provided by them may be subject to verification through matching programs;
- 6) procedures for verifying information produced in matching programs;
- 7) procedures for the retention and timely destruction of identifiable records created by the recipient agency in the matching program;
- 8) procedures for ensuring the administrative, technical, and physical security of the records matched and the results of such programs;
- 9) prohibitions on duplication and disclosure of records;
- 10) procedures governing the use by a recipient agency of records provided in the matching program including return or destruction of records;
- 11) information on assessments made regarding the accuracy of the records used in the matching program, if available;
- 12) that the Comptroller General may have access to all records of a recipient agency necessary in order to monitor or verify compliance with the agreement;
- 13) a cost-benefit analysis that details the source agency's anticipated benefit as a result of the matching program; and
- 14) as appropriate, provide samples of applicable agency notices.

02. The requesting agency will be provided an original of the matching agreement for signature by the agency head or other delegated official authorized to request data. Once signed by that agency, the agreement may be faxed to the IRS at (202) 622-3041.

03. The requesting agency will provide a cost/benefit analysis and a sample of the agency's notice(s) used to inform individuals applying for and receiving benefits that the matching program is being conducted.

04. The Service will receive the signed agreements from the requesting agency. After the Service obtains the signature of its approving official; approval of the matching agreement from the Data Integrity Board of the Department of Treasury and forwards copies of the matching agreement to the appropriate Congressional Committees, a copy of the signed matching agreement will be returned to the requesting agency.

05. The agreement will remain in effect for a period not to exceed 18 months and may be renewed (or extended) for an additional period not to exceed one year.

Section 7. REIMBURSABLE AGREEMENT

01. All work done by the Service under this matching program will be performed on a cost reimbursable basis. Billing will be at least quarterly, and may be monthly during the last quarter of the fiscal year. Actual costs may be higher or lower than the estimate and include the cost of IRS tapes/cartridges used to provide the tax return information.

02. In addition to the matching agreement, the Service will prepare an original Form 5181, Agreement Covering Reimbursable Services, upon receipt of and approval of an application from an agency. The requesting agency will be provided with an original of Form 5181. The requesting agency will complete the Form 5181 in accordance with accompanying instructions. Federal agencies must provide their Agency Location Code (ALC) in block 6b.

03. The Service will receive the signed documents from the agency. After the signature of the Service's approving official is obtained, a Form 5181 will be returned to the requesting agency. The Service will also assign an agency code and agency abbreviation to be used when making requests.

04. Upon receipt of the signed matching and reimbursable agreements, the agency may begin requesting tax return information.

Section 8. SAFEGUARDS AND RECORD KEEPING REQUIREMENTS

01. All tax return information obtained under Section 6103(l)(7) of the Code is subject to the safeguarding, record keeping, and reporting requirements of Section 6103(p)(4) of the Code. (Namely, information received from the Service and the Social Security Administration.) Information on the implementation of these statutory requirements may be found in IRS Publication 1075, Tax Information Security Guidelines for Federal, State and Local Agencies (as revised). The Internet address for Pub. 1075 is www.irs.ustreas.gov under "newsstand"). Tax return information does not lose its character as tax return information simply because the accuracy of the data has been "verified" by a third party. Rather, agencies should look to the source of the data as the determinant of whether information must be treated as return information. If the IRS has provided data from its records, then the data is return information. If a third party provides data from their records, the data provided is not considered to be return information. The third party cannot simply attest to the accuracy of the data submitted, but must provide data from their own records in order for the data to be considered "independently verified" and thus not subject to the safeguard requirements. Since return information must be safeguarded in accordance with the provisions of 26 U.S.C. section 6103(p)(4), it would be to the agency's advantage to accurately categorize the information as to its source.

02. If the tax return information becomes a part of the agency's case file regarding a specific taxpayer, because physical separation is impractical, the entire case file must be safeguarded. These files should be clearly labeled to indicate that Federal tax information is included and care should be taken to remove all such Federal tax data, when appropriate, to preclude access by unauthorized persons.

03. All computers and computer systems which process, store, or transmit Federal tax return information must meet or exceed class C2 security criteria as contained in the "Orange Book" (Department of Defense Trusted Computer System Evaluation Criteria, DOD 5200.28-STD).

04. Each agency which receives tax return information pursuant to Section 6103(l)(7) of the Code must submit a Safeguard Procedures Report at least 45 days prior to the initial scheduled receipt of tax return information. The report shall detail the security afforded the information, the individuals who may request and have access to the information, the flow of the information once the agency has received it, as well as other information which will give a comprehensive picture of the need for, the use of, and the

disposal of the tax return information. IRS Publication 1075, Tax Information Security Guidelines for Federal, State and Local Agencies (as revised), gives additional information about the Safeguard Procedures Report and may be obtained by writing to:

Internal Revenue Service
Director, Office of Safeguards
OP:EX:GLD:S, Room 3619
1111 Constitution Ave., NW
Washington, D.C. 20224

or on the Internet at www.irs.ustreas.gov under "newsstand".

05. The Safeguard Procedures Report is required prior to the initial receipt of Federal tax information but is not required for receipt of additional tax information received under the same disclosure authorization (program). However, if another program is entered into under the matching program, a Safeguard Procedures Report for the additional program must be submitted at least 45 days prior to scheduled receipt of tax return information. In addition, if agency procedures have changed substantially over several years, as reflected in the annual Safeguard Activity Reports, a new updated Safeguard Procedures Report may be requested of the agency by the Service.

06. The agency Safeguard Procedures Report will be submitted at least 45 days prior to scheduled receipt of tax return information and shall be submitted to:

Internal Revenue Service
Director, Office of Safeguards
OP:EX:GLD:S, Room 3619
1111 Constitution Ave., NW
Washington, D.C. 20224

07. Recipient agencies must also submit an annual Safeguard Activity Report which updates the material in the Safeguard Procedures Report. The specific content of this report is outlined in IRS Publication 1075. The annual period covered by the Safeguard Activity Report coincides with the "processing year" (July 1, through June 30, of the following year). State agencies must submit their Reports by **September 30th**, and federal agencies should submit their Reports by **January 31st**.

08. Pursuant to Section 6103(p)(4) of the Code, the Service has the authority to ensure compliance with applicable laws and regulations through the conduct of safeguard reviews of all recipient agencies at the Federal, State, and local levels.

Section 9. LIMITATIONS

01. The return information provided by the IRS will be used by the agency only to determine eligibility for, or the correct amount of, benefits under these programs. The agencies may not use the information in any manner or for any purpose not consistent with that authorized use under I.R.C. 6103(l)(7). Any secondary use is specifically prohibited and may subject offending officials to the imposition of criminal and/or civil penalties.

02. The Secretary shall disclose return information only for purposes of, and to the extent necessary in, determining eligibility for, or the correct amount of, benefits programs listed in Section 3 of this document. Agencies which receive tax return information pursuant to Section 6103(l)(7) may not reduce, suspend, terminate or deny aid or benefits until the agency has taken steps to independently verify the information, as provided for by the section 552a(p) of the Privacy Act of 1974, as amended. (See Section 9.01 for additional guidance in this area.)

03. Access to tax information must be restricted to the agency employees whose duties require access for the purpose for which the disclosure to the agency was made. The agency must evaluate which employees require such access before the information is disclosed. Because an employee may need to know some information does not mean the employee needs to know all tax return information provided to the agency. Access must be strictly limited and Federal tax information must be separated so an employee only sees what he or she needs to know. Federal tax information must be kept separate from other information to avoid commingling that may allow individuals access to information they do not need to know. Section 6103(l)(7) of the I.R.C. does not allow recipient agencies to disclose tax return information to contractors or other agencies.

04. The agency will strictly follow the safeguards required by the IRS in protecting tax return information. Safeguard standards prescribed in IRS Publication 1075, Tax Information Security Guidelines for Federal, State, and Local Agencies, must be followed.

05. Officers and employees of Federal, State, and local agencies who are entitled to access return information must not access it except to the extent necessary to achieve the purpose of the match and must not disclose this information to any other officer or employee within the agency whose official duties do not require this information to determine eligibility for, or the correct amount of, benefits for the programs specified in their matching agreement.

06. Officers and employees of Federal, State, and local agencies who inspect or disclose tax return information in a manner not authorized by IRC 6103(l)(7) are subject to the criminal penalty provisions of IRC Sections 7213 and 7213A, and of 18 U.S.C. Section 1030(a)(2). In addition, the agency could be required to defend a civil damages action under I.R.C. Section 7431.

07. Unauthorized inspections or disclosures of return information must be reported to the Treasury Inspector General for Tax Administration. The hot line telephone number for reports is: 1-800-366-4484.

08. If a State has more than one agency under the same department administering benefit programs (e.g., Department of Human Resources, Division of Food Stamps and Division of Medical Assistance) and the department head (e.g., Director, Department of Human Resources) is the signatory on the Matching Agreement, one agency may act as the coordinating agency to consolidate requests from the agencies and disseminate the IRS response. State agencies under different department heads must enter into a separate Matching Agreement with the Service and submit separate requests.

Section 10. INPUT FILE

01. Each agency must submit an input file to receive information from the Service. See Processing Schedule (Attachment 1).

02. Each input file must have an accompanying transmittal letter (Exhibit 1) that contains, at a minimum, the following information:

When the input file is scratched, the agency's file identification number will be replaced with a new identification number assigned by the Service.

92-121	Filler REQUIRED. Blank fill these positions.	30

Section 11. OUTPUT FILES OVERVIEW

01. The output files may be provided monthly on high or low density cartridge or high density tape. The output media should be specified in the Input file (pos 91). Failure to specify desired output media will result in a default to high density tape.

02. Agencies submit one file for processing; however up to two output files may be returned if the agency prefers. One file contains the invalid requests (D3) and the other contains tax return information (D9). Agencies electing not to receive the D3 file should so indicate in position 82 of their Input file and only the D9 file will be returned.

03. The Service will initially validate all SSNs and Name Controls provided by the requesting agency against the NAP DM1 file prior to running the agency's input against the IRMF. All records that do not pass the NAP DM1 validation process, as well as invalid agencies code, SSNs not all numeric or Name Controls not meeting specifications, will be captured on the D3 file.

04. All records that passed the diagnostic and NAP DM1 validation processes are matched against the IRMF. These records represent tax return information reported by the payers or "no match" when no information is available or information available is not authorized for disclosure. The records are returned on the Information (D9) file.

05. Each shipment will be accompanied by Form 3220, Mass Storage Media. This document is used to confirm receipt of cartridge or tape files. The recipient agency must sign, date and return one copy of Form 3220 to the Service within 14 days to the address noted on the form.

06. The cost of processing includes the cartridges/tapes used by IRS to provide the agency with return information, therefore, cartridges/tapes need not be returned to IRS. However, if agency policy or safeguard procedures dictate the return of the cartridges/tapes, a shipping transmittal should be used (Exhibit 2).

Section 12. UNPROCESSED RECORDS (D1 FILE)

01. The agency input file must follow the specified format exactly. Each cartridge or tape is processed through a diagnostic program to assure that it meets the format requirements. Each cartridge or tape, which does not meet the format requirements or the number of records in error equal more than 5% of the total record count, will be returned to the requesting agency unprocessed.
